(a) to enlarge the scope of facilities available to consumers of electricity;

(b) to extend the same facilities to consumers served by a Government Electricity Department, as are enjoyed by consumers of private licensees and State Electricity Boards;

(c) to exercise stricter control over licensees;

(d) to take powers to regulate the distribution, supply, consumption and use of energy in certain circumstances; and

(e) to provide for the inspection of electric works and installations of the Central Government.

3. With a view to making it easier for even scattered consumers to obtain the supply of electricity, the minimum number of persons entitled to get the mains extended to their premises at the licensee's cost is being reduced from six to two. Under the existing provisions of the Act, the gross revenue to be guaranteed by a consumer before receiving the supply of electricity is not definite and varies from undertaking to undertaking. Such gross revenue is now being specified as 15 per cent. of the cost of distribution mains (excluding the equipment in the sub-station) required for compliance with the requisition for supply of electricity. This figure is based on the average revenue actually guaranteed by a large majority of consumers of electricity in the country.

4. Persons served by licensees or State Electricity Boards, are entitled to certain statutory rights and privileges in respect of extension of the

distribution mains, requisitioning the supply of energy and meters, supply of energy for public lighting and freedom to use the energy in a prescribed manner. Although the Government Electricity Departments generally extend similar facilities to their consumers, no statutory obligation is imposed upon them in this behalf. It is accordingly proposed to give the same rights to consumers of a Government Electricity Department as are enjoyed by those receiving supply from a State Electricity Board.

5. Control over licensees is being tightened by empowering the State Government to forfeit the security deposit of a licensee on account of his failure to complete within the period specified in the licence, compulsory works referred to in the Schedule to the Act Inspectors appointed to investigate the causes of an electrical accident are being vested with powers of a civil court under the Code of Civil Procedure, 1908, for the purpose of compelling attendance of witnesses and production of documents, etc.

6. Difficulty is often experienced on account of a licensee neglecting to supply energy promptly to essential services. It is, therefore, proposed to empower State Governments to direct a licensee to supply and to continue to maintain the supply of energy, to essential services within his area of supply. Any dispute with respect to the price or other terms and conditions governing such supply shall be settled by arbitration. With a view to maintaining the supply and equitable distribution of energy, the State Governments are also being empowered to regulate the distribution, supply, consumption or use of energy.

7. In view of the increasing share of the Central Government in the field of generation and utilisation of electricity, it has been found necessary, for ensuring the safety of life and property, to subject their installations in all fields, to inspection and tests, similar to those prescribed in the case of the installations in mines and railways. It is, therefore, proposed to authorise the Central Government, to appoint inspectors with powers exercisable by electrical inspectors for mines and railways under the existing provisions of the Act, in respect of all other electric installations under the control of the Central Government.

DIRECTORATE OF AGRICULTURE, WEST BENGAL

Calcutta, the 8th November 1958

Final Forecast of Jute Crop of West Bengal (including transferred territories from Bihar) for 1958-59.

(*Note.*—The estimates of acreage and production of jute for this year shown in this forecast are based on the results of random sample surveys and crop-cutting experiments conducted by the State Statistical Bureau, West Bengal. (4) Where an Inspector has reasons to believe that a sealed package or container purporting to contain any net weight or measure of any article ordinarily sold by weight or measure does not actually contain the net weight or measure of the article which it purports to contain, the Inspector may, in the presence of witnesses, break open the sealed container and verify its contents.

(5) If, on such verification, the net weight or measure of the article is found to be correct, the Inspector shall tender the fair price thereof and may require a written acknowledgment therefor.

DEPARTMENT OF HEALTH

Public Health

NOTIFICATION

No. P.H./306/2R-3/59.—27th January 1959.—Whereas the Governor is satisfied that the municipal area of Siliguri in the district of Darjeeling is threatened with an outbreak of smallpox;

Now, therefore, in exercise of the power conferred by section 2 of the Epidemic Diseases Act, 1897 (III of 1897), the Governor is pleased to prescribe the following temporary regulations for the prevention and control of smallpox, and for the medical inspection, isolation, observation and surveillance of persons suffering from or suspected of being infected with smallpox in the said municipal area for a period of six months:—

Temporary Regulations for the Prevention and Control of Smallpox

1. In these regulations, unless there is anything repugnant in the subject or context:—

(a) "Health Officer" means the Health Officer of the municipality;

(b) "Sanitary Inspector" means a Sanitary Inspector appointed by the municipality;

(c) "Smallpox" means any disease accompanied by an eruption of vesicles or pustules;

(d) "Patient" means a person suffering from or suspected to be suffering from smallpox;

(e) "Medical practitioner" means any person practising the medical profession.

Notices

2. If in any case the Health Officer or a Sanitary Inspector considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of smallpox, he may forthwith take such steps as he may think fit for carrying out the work and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

3. If any measure which the Health Officer or a Sanitary Inspector has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the Health Officer or a Sanitary Inspector shall be entitled to carry out the measure.

Provided that where the conditions, which led the Health Officer or a Sanitary Inspector to pass such an order, are not attributable to any act or default of the person in possession of the property, the municipality may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The municipality may recover all expenses incurred by the Health Officer or a Sanitary Inspector in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The municipality shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Decision

For proper appreciation of the dispute it is necessary to state certain facts leading to the reference as are either admitted or established in evidence. Messrs. Jardine Henderson Ltd. (hereafter called the company) carries on business of different kinds. It is Managing Agents of several

tea gardens and jute mills. The present reference relates to the employees of clerical and subordinate staff working in its Head Office at 4 clive Row, Calcutta. The staff, clerical and subordinate, in the Head Office number about 511.

The workmen have two registered unions. One of them is called Jardine Henderson Triton and Atlas Employees' Association (hereafter called the Employees' Association) and the other is called the union of Jardine Henderson Sabalambi Employees (hereafter called the union). Both of them were formed in 1946. The Sabalambi Union is the recognised union of the company. According to the company it represents majority of the workmen employed in the Head Office at 4 Clive Row, Calcutta. The present reference under adjudication was, however, made by the State Government at the Instance of the Employees' Association.

By order No. 135Lab., dated 17th January 1948, the West Bengal Government referred the industrial disputes between 267 Mercantile Firms including this company and their employees for adjudication by a tribunal popularly known as the Mercantile Tribunal. The said tribunal considered separately the case of each of the firms and gave separate awards though more or less on same terms and conditions of service. The Bengal Chamber of Commerce of which most of the firms were members, had before the said reference, dated 17th January 1948, introduced scales of pay and dearness allowance for its own employees on the basis of the recommendations of an Enquiry Committee appointed by it and recommended them for adoption by its constituents. Most of the firms and companies which were members of the Bengal Chamber of Commerce had thus introduced similar scales of pay and dearness allowance for their own employees. The Mercantile Tribunal gave its award between the Bengal Chamber of Commerce and their employees on 26th January 1949 which was to serve as a model with adjustment here and there according to the individual requirements of the constituent members. The award was directed to be published under order No. 5481Lab., dated 8th February 1949.

The Mercantile Tribunal gave its award between this company (Jardine Henderson Ltd.) and their employees on 23rd June 1949 and this was published in the *Calcutta Gazette*, dated 11th August 1949. Regarding the clerical staff the award provided as follows:—

"We fix Rs. 70 as the starting pay of the clerks and prescribe the following Grades:—

At first all will enter the 'C' Grade at Rs. 70 and reach up to Rs. 110 in 10 years. After this there will be bifurcation and some will go to 'B' grade which will be Rs. 114—· 166 and others will go to 'A' Grade which will be Rs. 117—7—201.

There will be 3 Special Grades, viz:—

(1) Rs. 135 to Rs. 260, annual increment of Rs. 10 with efficiency bar at Rs. 205.

(2) Rs. 210 to Rs. 360, annual increment of Rs. 10 with efficiency bar at Rs. 270.

(3) Rs. 260 and upwards at the discretion of the company.

We fix the following as the grade for Stenographers: Rs. 90 ·—110 —7—208.

At present Rs. 20 is paid to the Graduate Clerks. This be absorbed in the salary and for future entrants this privilege shall not exist.

All clerks shall get a flat increment of Rs. 10. If, after this, the salary of any clerk does not fall in any stage of the time scale, he shall be placed at the next stage. These adjustments shall not affect the claim of any employee to the normal annual increments.

The ration concessions now granted shall be abolished.

Bengali Sircars for whom some literacy is insisted belong to the class of clerks though of a very inferior type. They shall be placed in the class of clerks with the grade Rs. 55—2—85—E.B.—3—130.

They shall also get an increment of Rs. 10 and the Graduate's allowance shall be absorbed in pay.

All employees under this category shall draw dearness allowance at the Bengal Chamber of Commerce scale."

Regarding subordinate staff it was found that none was getting less than Rs. 60 as total emolument of which basic was sometimes below Rs. 30. The Tribunal directed that the basic wage should be raised to Rs. 30 by cutting down the dearness allowance. Dearness allowance according to the Bengal Chamber of Commerce Scale was maintained subject to a deduction of Rs. 5 to raise the minimum basic salary of wholetime employee to Rs. 30. Subsequent to the award the company changed the index for calculation of dearness allowance of the subordinate staff in 1950. The index was changed from middle-class cost of living index to working-class living index as per Bengal Chamber of Commerce Scale circular. The said circular it appears was issued after notice to the Federation of Mercantile Employees' Union (Ext. 1). Subsequently in February 1956 the company increased the maximum of the grades of different categories of subordinate staff and also discontinued deduction from dearness allowance to make up the basic minimum to Rs. 30 in February 1956 (*vide* Ext. D).

The Employees' Association started agitation for improvement of the service conditions of the members of the clerical and subordinate staff of the Head Office as also of others employed in other establishments. It submitted a charter of demands primarily for the employees of the Central Machine Section situated in Howrah in 1954. Thereupon conciliation proceedings started and as there was no settlement the disputes with respect to Central Machine Section was referred to the First Tribunal presided over by Shri M. C. Banerji on 1st August 1956 and ultimately to this tribunal on 9th November 1957.

Subsequent to the reference of the disputes as to Central Machine Section to the First Tribunal, the Employees' Association submitted a fresh charter of demands on behalf of the clerical and subordinate staff working at (1) 4 Clive Row, Calcutta. (2) 15 Netaji Subhas Road, Calcutta, (3) Staff working in C. M. S. at Howrah, (4) Staff working in Atlas and Insurance Department in Netaji Subhas Road, Calcutta, and (5) Staff working in yarn and miscellaneous godown with a forwarding letter, dated 22nd February 1957 (Exts. E and E1). Thereupon fresh conciliation proceedings started and as no settlement was possible, the disputes so far they relate to the employees of the Head Office were referred to this tribunal for adjudication on 9th November 1957. Now let us consider the issues separately.

Issue 1: This relates to revision of scales of pay of different categories of the clerical and subordinate staff working in the Head Office at 4 Clive Row, Calcutta. The case of the Employees' Association as made out in the written statement before this tribunal in this respect is as follows:—

After the Tribunal award in 1949 fixing up scales and grades of different categories of employees of this company, there has been

enormous change in the economical condition and/or structure of the country. Several declarations by State and Central Governments to improve the status of the middle-class people would justify the union's claim for an improved scale of pay. There now exists three grades 'A', 'B' and 'C' and 3 special grades which are considered too many in the existing changed circumstances. Many of the firms of similar standing have given better grades and scales of pay introduced either by agreement or by subsequent awards. Moreover the present grades and scales of pay are not adequate enough for providing better amenities of life for workers. The Employees' Association accordingly lay stress on the introduction of one grade or at the most two grades for the clerical staff as without this there will be much difficulty to stand against creation of division amongst the workers. Moreover, the nature of details performed by the clerks are almost the same. In consideration of this the Bank Award and the Life Insurance Corporation of India have introduced one grade only. Besides in certain recent awards two grades have been preferred. The Employees' Association accordingly demands revision of grades and scales of pay in the manner as below:

Clerical

Grade B (for Clerks, Punch Operators and typists other than Section Heads).—Rs. 90—5—135/10—235/15—260.

Grade A (Section Heads and Clerks doing special responsible work independently).—Rs. 120—10—240/15—330/20—370.

Note: Typists should be given an additional allowance of Rs. 10 for work on machines.

Special Grade.—Above Rs. 370 left to the discretion of the company.

Stenographers.—Rs. 120—10—260/15—350.

Sircars.—Rs. 70—[illegible] 100/6—130/10 180.

Note: Sircars should be considered for promotion to clerical grade simultaneously with outside applicants against such vacancy and preference should be given to the Sircars provided they are considered suitable for the post.

Subordinate Staff.

Cooks, Jamadars, Polish Mistries and Tea Boys.—Rs. 45—3—70/5—120.

Duftries.—Rs. 60—3—105/5—130.

Drivers.—Rs. 75—[illegible]—175.

Peons, Tiffin men and Khansamas.—Rs. 40—2—60/3—90.

Cleaners, Farash and Sweepers.—Rs. 40—2—80.

Note: This time scale of pay be given retrospective effect from 1st January 1956 and a flat increment of Rs. 15 in the case of clerical staff and Rs. 10 in the case of sub-staff plus such increment to fit in the respective scale.

The company in reply submitted as follows:

Since the award of 1949 there has been no change in the circumstances justifying a revision of pay structure formulated and laid down by the Mercantile Tribunal. The Mercantile Tribunal considered the matter very thoroughly and laid down a standard wage structure for all Mercantile Firms. The award of the Bengal Chamber of Commerce was undoubtedly

intended to be the standard and the Mercantile Tribunal expressed in the awards for some of the Mercantile Firms that its intention was having regard to the then existing service conditions including the pay structure and dearness allowance to conform substantially to the award of Bengal Chamber of Commerce. This view was confirmed by the Hon'ble Labour Appellate Tribunal in the case of Messrs. McLeod & Co. So, there would be no justification for revision of the wage structure.

Since the award of the Mercantile Tribunal the financial position of the company has deteriorated making a change for the worse. A reduction in the wage structure, therefore, will be justified and not an increase as claimed by the Association. The wage scales for the clerical staff are fair, equitable and appropriate. The scheme of grades existing at present for clerical and subordinate staff operate to the benefit of the employees and there will be no justification for modification of the present wage structure. Regarding the scales of pay for subordinate staff the matter was considered by a number of Tribunals who all came to the decision that such wages of subordinate staff were fair and proper and needed no alteration. In fact, it was felt that the wage structure was overgenerous. On giving careful consideration to the matter, it appears that the case of the company, that there has been no change in circumstances since the award in 1949 and consequently the grades and scales of pay fixed thereunder are not liable to be revised should prevail. On appeal decided on 11th October 1956 in the case of Messrs. Burn & Co., Ltd., Howrah Iron Works and their employees, it has been held by the Hon'ble Supreme Court of India that although section 11, C. P. C., is in terms inapplicable to adjudication proceedings, the principle underlying it, expressed in the maxim "*interest rei publicae ut sit finis litium*", is founded on sound public policy and is of universal application. (*Vide* Broom's Legal Maxims, Tenth Edition, page 218.) It has further been found: "There are good reasons why this principle should be applicable to decisions of Industrial Tribunals also. Legislation regulating the relation between Capital and Labour has two objects in view. It seeks to ensure to the workmen who have not the capacity to treat with capital on equal terms, fair returns for their labour. It also seeks to prevent disputes between employer and employees, so that production might not be adversely affected and the larger interest of the society might not suffer. Now, if we are to hold that an adjudication loses its force when it is repudiated under section 19(6) and that the whole controversy is at large, then the result would be that far from reconciling themselves to the award and settling down to work it, either party will treat it as a mere stage in the prosecution of a prolonged struggle, and far from bringing industrial peace, the awards would turn out to be but truces giving the parties breathing time before resuming hostile action with renewed vigour. On the other hand, if we are to regard them as intended to have long term operation and at the same time hold that they are liable to be modified by change in the circumstances on which they were based, both the purposes of the legislature would be served. That is the view taken by the Tribunals themselves in The Army & Navy Stores Ltd. *vs.* Their workmen 1951(2) L. L. J 231 and Ford Motor Co. of India Ltd. *vs.* Their workmen 1951(2) L. L. J 231 and we are of opinion that they lay down the correct principle, and that there were no grounds for the Appellate Tribunal for not following them".

In view of this decision, claim for revision of the grades and scales of pay can only be sustained if there has been change in the circumstances on which the were based. The allegations which the Employees' Union made in this respect in the written statement are none which can be accepted as such change in the circumstances. A change in the economical condition or

structure of the country or the directives by State and Central Governments for improvement of the status of the middle-class people as alleged are obviously none of those changes which would justify a revision. These can at best hold good, if at all, for a general revision in the Mercantile concerns as a whole, and not for any individual concern as here. No revision can be undertaken in an individual concern separately unless there are special circumstances for it. No special circumstance has been alleged or proved. The existence of more than one grade is not unique in this company. Such grades and pay scales are normal features of service in mercantile firms. It is both in the interest of the employers and employees that there should be different grades and pay scales rather than one common scale for all of the clerical staff as claimed during argument. In any case grading depends upon job valuation which is entirely the management function. Any alteration in the system by an outsider is likely to raise complications which must be avoided by all means. Besides in the present case it is abundantly clear from the provisions made in the award itself that the grades C, B and A are not independent separate grades but a clerk who starts in C Grade goes automatically either to B grade or C grade and will reach maximum of Rs. 166 or B Grade or of Rs. 201 of A Grade. There are thus virtually two grades (1) C plus B and (2) C plus A. The spread-over of these two grades (1) C plus B and (2) C plus A is also fairly good even if their occupants thereafter do not receive promotion to special grades. In the case of grade C plus B it is 22 years and in the case of grade C plus A it is 22 years. In the case of Karam Chand Thappar & Brothers *vs.* Their workmen, claim for changing the existing grades from 4 to 3 was turned down by the Appellate Tribunal. The main business of Messrs. Karam Chand Thappar is managing agency as in the present company. In the case of Messrs. McLeod & Co., Ltd., the Appellate Tribunal also refused to interfere with the existing grades. In the present case no details of the nature of work done by clerks of different grades have been given. It cannot be accepted that work of all clerks is of similar nature all through. It has been held in the case of James Finlay & Co., Ltd reported in 1957 L. A. C. 155 at page 164 that "although the routine works of a clerk are essentially of similar nature, it cannot be denied that some of the jobs require quick despatch, mature consideration, initiative and thorough mastery of the rules and practice of the establishment which are generally expected from the comparatively senior and the senior people are generally allotted such works as involved greater care, intelligence and responsibilities in preference to the comparatively junior people Even the care, intelligence, responsibility and initiative involved in different jobs vary from job to job Grading of jobs is an exclusive function of the management". I am, however, conscious of the fact that the existence of too many grades allows a wide discretion to the management which may create an apprehension in the minds of the employees that they would not get a square deal at the hands of the management but at the same time it cannot be ignored that the grades are essential features of the organisation and cannot be abolished except at the sacrifice of incentive to work and efficiency. One has therefore to depend on the management's sense of fairness. If the promotion is made automatic there would be no incentive to work. Then although seemingly there is one single grade with running scales under the Bank Award or in the Life Insurance Corporation of India, these are, in fact, multiple grades. Then again revision would not be justified merely on the ground that employees in other concerns have secured better grades and scales of pay by settlement or by awards subsequent to the award of Mercantile Tribunal. Similarly the rise in the cost of living index cannot be one of the grounds for revision of pay scales. It is a subject more appropriate to the quantum of dearness allowance. Besides in the present

case the Bengal Chamber of Commerce Scale of dearness allowance which has been current provides for increased dearness allowance with rise in the cost of living index. So, rise in the cost of living index since the award of 1949 can be no ground for revision in the grades and scales of pay.

As to the comment on the evidence of the Chief Personnel Officer Shri S. R. Zachariah (D. W. 1) that he has got better terms under the present covenant which would indicate that there has been change for the better to justify a revision for workmen of the clerical and subordinate staff, I am afraid no such inference can be made. The matter between him and the company is exclusively regulated by contract. If he has been able to secure better terms under the present contract, this would not mean that there has been change since the award of 1949 to justify a revision.

Then as to claim of employees' association for revision during argument on the ground that the Mercantile Tribunal did not go deep into the matter, fixed these grades without any scientific basis whatsoever and merely confirmed the grades and scales of pay fixed by the company on an ad hoc basis, I am unable to uphold the contention. The Bengal Chamber of Commerce is an association of mercantile firms whose duty was to guide the constituent members with its recommendations on matters touching upon smooth working in the industrial establishments. The Bengal Chamber of Commerce prepared a scheme of wage structure for different categories of workmen which included among other things grading the different jobs, fixing the minimum and the maximum of each grade, the scales of increment and a liberal scheme of dearness allowance. This was recommended to constituent members and most of them including the present company adopted the same. In this state the case of Bengal Chamber of Commerce was first taken up by the Mercantile Tribunal among the contested cases for adjudication. There the tribunal carefully went into the question and after taking into consideration the recommendations of the committee appointed by the Bengal Chamber of Commerce, Report of the Central Pay Commission and other awards made at the time came to the conclusion that the grades and scales of pay both of the clerical and subordinate staff were proper and adequate. As the Enquiry Committee of Bengal Chamber of Commerce overlooked to provide for the house rent in its recommendations on the basis of the figures compiled from the weekly periodical "Capital", the tribunal made good the said omission by fixing the minimum basic salary of a clerk at Rs. 70 by adding to the minimum basic salary of Rs. 60, as recommended by the Bengal Chamber of Commerce, Rs. 10 on account of house allowance. This necessitated a uniform increment of Rs. 10 at all stages of the several grades recommended by the Bengal Chamber of Commerce including the minimum and maximum. The tribunal stated full reasons in the award relating to the Bengal Chamber of Commerce. The said case was intended to be the model and the Mercantile Tribunal expressed in the awards of some of the firms that its intention was, having regard to the then existing service conditions including wage structure and dearness allowance, to conform substantially to the award for the Bengal Chamber of Commerce. This is why in the award of the present company which was subsequently made, the said tribunal did not record reasons separately. It cannot, therefore, be said that the award of 1949 relating to this company was made on ad hoc basis Now as to the minimum basic wage of a clerk which is Rs. 70 per month the matter has been considered in appeal in the case of James Finlay & Co. and it has been found that it is not comparatively low when judged on the industry-*cum*-region basis (*vide* 1957 L. A. C. at pages 166 to 171).

Regarding the substaff it has already been noted that the maximum of the scales of some of the categories have been raised and there has been discontinuance of deduction of Rs. 5 from the dearness allowance. The existing scales cannot be said to be inadequate. As to the financial position of the company the statement (Ext. B) shows that the amount of gross profit which was Rs. 51,76,432 in 1949 decreased to Rs. 27,75,341 in 1957. The rates of dividend have also similarly decreased. The awards in disputes between other parties cited by the employees' association were made prior to the aforesaid decision of the Supreme Court on 11th October 1956, and are, therefore, of no value. So, giving due consideration to all the factors, I find nothing sufficient to sustain the claim for revision either for clerical staff or for the subordinate staff. The claim is accordingly rejected.

Issue 2: Clerical staff including Stenographers and Bengali Sircars are paid dearness allowance according to the Bengal Chamber of Commerce Scale linked with middle-class cost of living index. Such dearness allowance was also prevalent for the subordinate staff. The total emoluments of none of the subordinate staff was below Rs. 60 while in some cases the minimum basic was below Rs. 30. So by the award the Mercantile Tribunal directed that the minimum basic should be raised to Rs. 30 by deducting the corresponding amount from the dearness allowance. Subsequent to the award the dearness allowance of the subordinate staff was linked with working class cost of living index from 18th September 1950. Deduction of Rs. 5 from the dearness allowance to increase the basic pay to Rs. 30 continued. At the time of linking the dearness allowance with working class cost of living index the Bengal Chamber of Commerce intimated about such change to the Federation of Mercantile Employees' Union (Ext. 1). There had been no protest to the proposed change and dearness allowance of the subordinate staff was linked from then onwards with the working class index. The scale of such dearness allowance is to be found in Annexure to Ext. 1. Not only this company adopted the change but also other constituents of the Bengal Chamber of Commerce. The change was also contested by adjudication proceedings in different concerns but without success. This tribunal had also to consider the matter in the case of Messrs. Duncan Brothers and their workmen. The tribunal also upheld this change. Since then there has been discontinuance of deduction of Rs. 5 from the dearness allowance in the present company. The present rate of dearness allowance for the subordinate staff is Rs. 61 per month. The company pays the whole amount of Rs. 61 without deducting Rs. 5 as permitted under the award of 1949. The Employees' Union has no grievance regarding dearness allowance of the clerical staff. It demands that the dearness allowance the subordinate staff should be linked with the middle-class cost of living index I find nothing to uphold this claim. Difference between middle-class cost of living index and working-class cost of living index lay on the stress which is placed on the different items of necessities which are, however, common in both the categories. This is very natural. The subordinate staff cannot, therefore, have any grievance and the claim for dearness allowance linked with middle-class cost of living index is accordingly rejected.

Issue 3: The Employees' Association has not claimed Puja bonus or profit bonus for any particular year. It simply seeks to have a declaration in this respect. I am afraid the tribunal cannot adjudicate matters in abstruse. There can be no adjudication from the point of view of making a declaratory relief.

Issue 4: This relates to retiral benefits. This was also a subject matter of adjudication in issue No. 3 before the Mercantile Tribunal. By the award of 1949 the existing arrangement was maintained. They are as follows:—

Gratuities may be given for long and good service at the discretion of the company at the time of retirement as follows:—

Subordinates: 10 to 20 years' service ½ month's basic salary for each year.

Twenty to 30 years' service ¾ month's basic salary for each year.

Over 30 years' service 1 month's basic salary for each year.

Less the company's contribution to provident fund.

Clerks: Double the above rate less the company's contribution to provident fund.

It also appears that subsequent to the award the company increased the rate of contribution of the provident fund from 6¼ per cent. to 7½ per cent. with a like rate of contribution on its part.

The Employees' Union demands that the rate of gratuity for the subordinate staff should be brought on par with those of the clerical staff, and that there should be no deduction of employer's share of contribution to provident fund at the time of payment of the gratuity of the subordinate and the clerical staff. The company resists the claims. I find nothing sufficient to grant same rate of gratuity as for the clerks to the subordinate staff. Such provision of different rates does not amount to discrimination. The different rates are justified as the clerks have more commitments to fulfil than the members of the subordinate staff. Regarding deduction of company's share of contribution to provident fund from the gratuity, it appears that the existing system was maintained in the award of 1949 without adjudicating on merits. I, however, think that time has now come when the scheme of gratuity framed by the company should be modified and said deduction from gratuity should cease. It is now well-settled that both forms of retiring benefits—Provident Fund and Gratuity Scheme—are necessary. The company have also provided both forms of benefits to the employees of the clerical and subordinate staff. After having done so, it will be in the fitness of things that the company now extends full operation of the scheme of gratuity without making deduction so that the employees may get full benefit out of the same on retirement. The demand of the workmen is thus considered reasonable and it appears that the company has also financial capacity to bear the burden. The demand for discontinuance of deduction of company's share of contribution to the provident fund from the gratuity is accordingly granted.

Issue 5: At present the employees get following leaves:—

Privilege leave: Employees with 1 to 10 years of service—Fourteen days per annum accumulative up to 28 days on full pay.

Over 10 to 20 years of service—Twenty-one days per annum accumulative up to 42 days on full pay.

Over 20 years—Twenty-eight days per annum accumulative up to 56 days on full pay.

Sick leave: Sick leave will be allowed on the recommendation of the office doctor, on full pay, in Calcutta only. The period will be at the discretion of the company.

Casual leave: Ten days annually on full pay non-accumulative may be allowed in periods not exceeding 4 days at a time.

Under this head the Employees' Association pressed during argument only claim for study leave in addition to those already existing. The Employees' Association demands study leave for 3 months without pay inside the country and 9 months without pay outside the country.

The company opposes the claim. Study leave is something new. I find no justification to make an innovation in this company. The claim is accordingly rejected.

Issue 6: At present the company has part-time office doctor who attends the office from 11 a.m. to 1 p.m. daily except Saturday. The said office doctor also attends the sick employees at their residence provided the residence is within a distance of five miles from the office. No charge is made for attending and prescribed medicines are supplied free. The latter facility of attending the employees at their residence is not available to the employees living beyond five miles or outside Calcutta.

The Employees' Association firstly demands that the doctor should be available throughout office hours and on all working days. Its further demand is that those employees who live beyond five miles and outside Calcutta be allowed cost of medicines prescribed by their doctors, as also Rs. 4 per call. The company opposes the claim. It pleads that in addition to the facilities as above, the employees can receive aid from the Benevolent Fund started by the company. The matter is entirely within the discretion of the management. It has no legal obligation whatever. The tribunal cannot, therefore, direct enlargement of the benefits.

Issue 7: The Employees' Union demands that the rate for overtime work should be increased from 1¼ of basic salary to 1½ salary including dearness allowance. It also demands that the existing arrangement of the company for overtime work to start from 5-30 p.m. on week days and 1-30 p.m. on Saturdays should be changed so as to commence after 5 p.m. on week days and 1 p.m. on Saturdays. The company opposes the claims. Under the award of 1949 overtime was directed to be paid as under Shops and Establishments Act. At the time the rate was 1¼ of the basic pay. Since then the rate has been increased to 1½ times. Although no working hours have been prescribed for commercial establishments under the Bengal Shops and Establishments Act and although said overtime rate does not in terms apply to the employees of commercial establishments as here, I find no sufficient reason why the company should not fall in line and pay overtime at 1½ times of the basis pay. The claim of the Employees' Union in this respect is accordingly allowed but limited to basic pay.

Regarding commencement of the hours of overtime it appears from the award between the Bengal Chamber of Commerce and their employees which was to serve as a model, that half an hour after the closing hours of the office was omitted for calculation of overtime. I understand that this is also the practice in similar other establishments. Considering this and considering the fact that the clerical staff has not to work for more than 7 hours a day including half an hour recess on week days and 3 hours on Saturdays and the said hours are less than those prescribed for shops and other establishments under the Bengal Shops and Establishments Act, I think there would be no justification to alter the existing arrangement. So half an hour after the scheduled closing hour of the office should continue to be omitted from the calculation of overtime as now.

Issue 8: The company provides free tiffin and tea to the extent of annas 10 per head per day on full working days and tea and biscuits on half

holidays. According to the company the total cost on this account amounts to 12 annas 3 pies per head per day which it appears is inclusive of the cost of establishment required for making. The Employees' Association demands that the tiffin as is supplied should be of the full value of 12 annas 3 pies exclusive of establishment charge. The company opposes the claim. I do not think there should be any compulsion in the matter. The demand is accordingly rejected.

Issue 9: This has not been pressed.

Issue 10: Shri Karuna Chandra Majumdar has since died. No adjudication is accordingly called for.

This is my award.

NOTIFICATION

No. 225L.—30th January, 1959.—The Governor having been pleased to order, under rule 48 of the West Bengal Legislative Assembly Procedure Rules, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information:—

THE WEST BENGAL TAX LAWS (AMENDMENT) BILL, 1959.

A BILL

to amend certain tax laws in force in West Bengal.

WHEREAS it is expedient to amend certain tax laws in force in West Bengal for the purpose and in the manner hereinafter appearing;

It is hereby enacted in the Tenth Year of the Republic of India, by the Legislature of West Bengal, as follows:—

Short title.

1. This Act may be called the West Bengal Tax Laws (Amendment) Act, 1959.

Insertion of new section 7A in Ben. Act V of 1941, section 11A in Ben. Act VI of 1941, section 9A in Ben. Act XI of 1941, section 10A in West Ben. Act IV of 1954 and section 10A in West Ben. Act XXV of 1955.

2. After section 7 of the Bengal Motor Spirit Sales Taxation Act, 1941, section 11 of the Bengal Finance (Sales Tax) Act, 1941, section 9 of the Bengal Raw Jute Taxation Act, 1941, section 10 of the West Bengal Sales Tax Act, 1954 and section 10 of the West Bengal Taxes on Entry of Goods in Local Areas Act, 1955, the following provisions numbered as section 7A, section 11A, section 9A, section 10A and section 10A respectively, shall be inserted and shall be deemed always to have been inserted, namely:— Ben. Act V of 1941. Ben. Act VI of 1941. Ben. Act XI of 1941. West Ben. Act IV of 1954. West Ben. Act XXVI of 1955.

"Action taken and proceedings commenced or continued in the trade name of a business.

Notwithstanding anything contained in any law for the time being in force, in respect of any business carried on under a trade name,—

(*1*) action may be taken under this Act in any matter connected with the purposes of this Act including the realisation of taxes or penalty, and proceedings for the recovery of any such taxes or penalty may be commenced or continued under any law against the person owning the business, and

The West Bengal Tax Laws (Amendment) Bill, 1959.
(Clause 2.)

(2) no action taken or proceedings commenced before the commencement of the West Bengal Tax Laws (Amendment) Act, 1959, shall be called in question merely on the ground that such action was taken or such proceedings were commenced in the trade name of the business.".

STATEMENT OF OBJECTS AND REASONS.

Under the Bengal Finance (Sales Tax) Act, 1941, and certain other tax laws of the State and also the Bengal Public Demands Recovery Act, 1913, action is required to be taken for matters connected with the purposes of those Acts including the issue of registration certificates and initiation of proceedings for the realisation of taxes and recovery of arrears of taxes in the name of a person or persons.

2. Due to practical difficulties, however, it is not always possible for the Commercial Taxes Directorate to avoid issuing registration certificates and initiating assessment proceedings in the trade name of a business rather than in the name of its proprietor. Certificates for the recovery of the arrears of taxes are also sometimes filed in such trade names. The object of the present Bill is to safeguard revenue by rendering all such actions and proceedings free from objection.

NOTIFICATION

No. 261L.—6th February, 1959.—The Governor having been pleased to order, under rule 48 of the West Bengal Legislative Assembly Procedure Rules, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information:—

THE DENTISTS (WEST BENGAL AMENDMENT) BILL, 1959.

A

BILL

to amend the Dentists Act, 1948, in its application to West Bengal.

WHEREAS it is expedient to amend the Dentists Act, 1948, in its application to West Bengal for the purpose and in the manner hereinafter appearing; XVI of 1948.

It is hereby enacted in the Tenth Year of the Republic of India, by the Legislature of West Bengal, as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Dentists (West Bengal Amendment) Act, 1959.

(*2*) It extends to the whole of West Bengal.

(*3*) It shall come into force on such date as the State Government may, by notification in the *Official Gazette*, appoint.

Application of the Act.

2. The Dentists Act, 1948, (hereinafter referred to as the said Act) shall, in its application to West Bengal, be amended in the manner hereinafter provided.

The Dentists (West Bengal Amendment) Bill, 1959.

(Clause 3.)

Amendment of section 34 of Act XVI of 1948.

3. After clause (*a*) of sub-section (2) of section 34 of the said Act, the following clause shall be inserted, namely:—

"(*aa*) during the period of two years immediately after the commencement of the Dentists (West Bengal Amendment) Act, 1959, any person who does not hold any recognised dental qualification but has been engaged in practice in Chandernagore as defined in the Chandernagore (Merger) Act, 1954 or in the district of Cooch Behar as a dentist as his principal means of livelihood for a period of not less than five years prior to the date appointed under sub-section (2) of section 32, shall be entitled, on payment of the prescribed fee, to have his name entered on the register of dentists, if he is a citizen of India and resides and carries on the profession of dentistry in the State of West Bengal;". XXXVI of 1954.

STATEMENT OF OBJECTS AND REASONS.

In accordance with the provisions of the Dentists Act, 1948, which came in force on the 29th March, 1948, applications for first registration were received up to 31st March, 1950, the appointed date under section 32 of the Act and the first registration of dentists was completed in 1950.

The dentists who were in the State of West Bengal during the time of first registration had the opportunity of registering their names with the West Bengal Dental Council according to their respective qualifications. The dentists of Cooch Behar and Chandernagore which were merged with the State of West Bengal on the 1st January, 1950 and 2nd October, 1954, respectively, and in which areas the Dentists Act, 1948, was not in force before such merger, could not avail of the privilege of registering their names with the said Council in the first register. Although the persons having recognised dental qualifications mentioned in the Schedule to the Act are eligible for registration, the dentists of the said areas who had been in practice as principal means of livelihood for not less than five years before the appointed date, that is, the 31st March, 1950, cannot have the privilege of registration like those who were in the State of West Bengal before merger of the said areas with the State of West Bengal, as the date has already been over.

In order to ameliorate the hardship of the dentists practising in Cooch Behar and Chandernagore an amendment to the Act was considered essential and the Government of India were moved for the same. The Government of India observed, *inter alia*, that this was a local matter and the State Legislature might be prompted to amend the Act. This Bill, which has the concurrence of the Government of India, has been framed with this object in view.

STATEMENT OF OBJECTS AND REASONS.

The Wild Life in West Bengal is in a sad state of depletion and many interesting species are fast becoming extinct. The tempo of expanded human activity in modern times tends to eliminate wild life. The imbalance which results from such destruction has far-reaching adverse consequences on the material welfare of man; the diminution of the rich variety of wild life will be detrimental to the cause of science; and the indulgence in, or the adoption of an apathetic attitude towards senseless slaughter has a stultifying effect on the human spirit.

This realisation has led many countries in recent times to tighten their game laws and to enact more comprehensive legislation in order to extend the scope of the protection of wild life and wild life habitats. It is also these considerations that gave rise to the establishment, in our country, of the Central Board for Wild Life and the State Boards for Wild Life. Informed public opinion, the Central Board and our State Board for Wild Life have all been insistent on the early introduction of effective legislation to prevent further depletion of our wild life heritage. The present Bill has been drafted in compliance with this growing demand.

The Wild Birds and Animals Protection Act, 1912 is sketchy; it has been ineffective as offences against the Act are non-cognizable. The proposed legislation makes such offences cognizable. It also purports to restrict snaring and trapping; to regulate the trade in trophies and pet animals; to make provision for the constitution of wild life habitats even outside the Reserved and Protected Forests into sanctuaries; to impose deterrent penalties for crimes against wild life; and to provide for the appointment of officers and Honorary Game Wardens to implement the new law.

With the above objects in view it has been proposed to enact the West Bengal Wild Life Preservation Bill, 1959.

GOVERNMENT OF WEST BENGAL

DEPARTMENT OF LOCAL SELF-GOVERNMENT AND PANCHAYATS

RESOLUTION

No. 1226/M.1M-19/59.—13th February 1959.—The attention of Government has been drawn to the serious situation which has arisen in the Raiganj Municipality in the district of West Dinajpur as a result of the resignations tendered by all the nine Commissioners of the said municipality. It appears that seven Commissioners of the municipality, including the Chairman and the Vice-Chairman, submitted their letters of resignation which were considered and accepted at a meeting of the Commissioners held on the 5th February 1959. The remaining two Commissioners also sent their letters of resignation to the District Magistrate of West Dinajpur after the date of the aforesaid meeting. Although their resignations have not been formally accepted by the Commissioners at a meeting as required under sub-section (4) of section 60 of the Bengal Municipal Act, 1932, these two Commissioners cannot carry on the administration of the municipality until the vacancies caused by the resignations of seven Commissioners are filled up as their number is insufficient to form the necessary quorum prescribed in section 82 of the Act. A situation has thus been created in the municipality in which there is no one to carry on its administration which has virtually reached a state of deadlock.

After a careful consideration of the matter, Government have come to the conclusion that the Commissioners of the Raiganj Municipality have, by their conduct as aforesaid, clearly shown their incompetency to perform the duties imposed on them by or under the Bengal Municipal Act, 1932, and that the present state of affairs cannot under any circumstances be allowed to continue without serious detriment to the interests of the residents of the municipality.

In the exercise of the power conferred by section 553 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Governor is, therefore, pleased to declare the Commissioners of the Raiganj Municipality to be incompetent and to supersede them for the period from the date of publication of this resolution in the *Calcutta Gazette* to the 31st March 1960.

ORDERED that this resolution be published in the *Calcutta Gazette*.

By order of the Governor,
A. NIYOGI,
Jt. Secy. to the Govt. of West Bengal.

NOTIFICATION

No. 1227/M.1M-19/59.—13th February 1959.—In exercise of the power conferred by clause (b) of sub-section (1) of section 554 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), hereinafter referred to as the said Act, the Governor is pleased to direct that all the powers and duties which may, under the provisions of the said Act or any other Act or any Ordinance or any Regulation or any rule, bye-law, order, notification or subsidiary legislation, made under the provisions of the said Act or such other Act, or such Ordinance or such Regulation, be exercised and performed by the Chairman and by the Commissioners whether at a meeting or otherwise, of the Raiganj Municipality, who have been superseded by Resolution No. 1226/M.1M-19/59, dated the 13th February 1959, shall be exercised and performed by the Subdivisional Magistrate, Raiganj, in addition to his own duties, during the period of such supersession.

NOTIFICATION

No. P.H./535/2R-6/59.—11th February 1959.—Whereas the Governor is satisfied that the districts of Malda, Murshidabad, West Dinajpur, Bankura and Burdwan are threatened with an outbreak of small-pox;

Now, therefore, in exercise of the power conferred by section 2 of the Epidemic Diseases Act, 1897 (III of 1897), the Governor is pleased to prescribe the following temporary regulations for the prevention and control of small-pox and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with small-pox in the said districts for a period of six months:—

TEMPORARY REGULATIONS FOR THE PREVENTION AND CONTROL OF SMALL-POX.

1. In these regulations, unless there is anything repugnant in the subject or context,—

(e) "Patient" means a person suffering from or suspected to be suffering from small-pox;

(f) "Medical practitioner" means any person practising the medical profession.

Notices

2. If in any case the Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of small-pox he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reasons why such work has been carried out.

3. If any measure which the Health Officer has by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the Health Officer shall be entitled to carry out the measure.

Costs and compensation

4. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the State Government except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by such person:

Provided that where the conditions which led the Health Officer to pass such an order, are not attributable to any act or default of the person in possession of the property, the State Government may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The State Government may recover all expenses incurred by the Health Officer in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The State Government shall pay adequate compensation to any person, who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations if he has failed to carry out an order issued under these regulations. He shall not direct the patient to be removed from the house unless it is, in his opinion, impossible to make proper arrangements for his isolation therein within the time specified in the order and to the satisfaction of the Health Officer.

Location of disease

6. When a case of small-pox occurs in a house, the nearest male relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, the senior male

8. Presidents of union boards in union board areas and thana officers in non-union board areas shall supply to the Health Officer such periodical returns of cases of small-pox as he may from time to time call upon them to furnish.

9. The Health Officer or a Sanitary Inspector may examine any person who is, or suspected to be, suffering from small-pox or who, in his opinion, may be infected with or likely to spread small-pox.

Isolation of patients

10. When the Health Officer or a Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population, he shall order the patient to observe isolation and may order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying, to arrange for the isolation of the patient in such a manner and for such a time as may be approved by the Health Officer.

11. The Health Officer or a Sanitary Inspector may order that any person, who has been in contact with a person found to be suffering from small-pox, shall be segregated for a period not exceeding a fortnight in a manner and in a place to be approved by the Health Officer.

12. The Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox shall be vaccinated or re-vaccinated within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 10, without the permission of the Health Officer or a Sanitary Inspector.

14. When a patient has been removed from a house for isolation under regulation 10, the State Government shall provide for him free of charge a suitable place, with necessary attendants, diet, etc.

15. No person, who is or has been suffering from small-pox, shall leave the place where he has been staying until he has received from the Health Officer or a Sanitary Inspector written permission to do so.

(iii) that excepting one or two attendants for the patient no other person is carried in the conveyance at the same time.

25. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such articles to be carried in any public

NOTIFICATIONS

No. 1151P.—17th February 1959.—In exercise of the powers conferred by section 9 of the West Bengal Cinemas (Regulation) Act, 1954 (West Bengal Act XXXIX of 1954), the Governor is pleased to make the following amendments in the West Bengal Cinemas (Regulation of Public Exhibitions) Rules, 1956, as subsequently amended, namely:—

Amendments

In the said rules—

(*1*) in the Schedule to Form I, *for* condition 45, *substitute* the following condition:—

"45. **Operators.**—Three operators, duly certified and holding certificates valid for the time being, shall be permitted in the operating room at any time for the purpose of operating the cinematograph machine and no other persons shall be within ten feet of the machine during the exhibition. The whole duty of one of the operators shall consist in taking charge of the films after they have passed through the machine and that of another, of the machine and of the operating box, while the duty of the third shall be to assist in the operations generally. In appropriate exceptional cases the licensing authority may permit the licensee to have only two operators, but not less than two, in the operating room for the purpose of operating the cinematograph machines at any time. The person in charge of the cinematograph machine shall be a qualified operator who possesses a certificate showing that he is qualified to operate a cinematograph machine, granted by the licensing authority of the district or Calcutta, as the case may be, where the cinema house is located.

The certificate referred to above shall be issued by the licensing authority on payment of a fee of Rs. 2 and shall be valid for one year unless sooner revoked by the licensing authority. It shall be renewed regularly at the end of that period on payment of a fee of Rs. 2 only. Any operator who fails to do so within fifteen days after the term of his certificate has expired shall be required to pay a fine of Re. 1 only, at the time of its renewal.

A fee of Re. 1 shall be charged for a duplicate or a subsequent copy of the certificate.

The certificate shall be open to inspection by an officer authorised in this behalf by the licensing authority in writing while the operator is within the operating room. The licensee of the cinema house shall be responsible to see that no operators who have no valid certificate get admission into the operating room.

An operator shall not be granted an operator's certificate unless he has passed a qualifying test to be held by the Central Board for the purpose of testing his knowledge of—

(*i*) operation of standard cinema projection machines;

(*ii*) municipal bye-laws and rules relating to cinematograph exhibition;

(*iii*) methods of taking precautions against fire and methods of dealing with fire;

(*iv*) elements of electric power, AC and DC, power lines, switch-boards, voltage and amperage regulation and reading, working knowledge of petrol, kerosene and diesel generators and transformers and converters;

(*v*) care of films, repairs, re-winding, cleaning, packing, etc.

Qualifying tests shall be held by the Central Board in May and November every year at four regional centres in the State. An application for an operator's certificate may be made before the 31st March or the 30th September each year, as the case may be, to the appropriate licensing authority who shall inform the applicant in writing about the regional centre at which and the dates on which the test shall be held. At these centres the test shall be held by the Central Board with the assistance of a Regional Committee and shall consist of (*i*) a written test, (*ii*) a *viva-voce* test, and (*iii*) a practical test. After the test at each centre is over, the Central Board shall prepare a list of such applicants as have qualified at the test and shall forward the list to the licensing authorities concerned. Qualified operators shall thereafter be called upon by the licensing authorities concerned to produce a certificate, from the District Medical Officer in the district or from a Presidency Surgeon in Calcutta, as the case may be, of physical fitness and of having no defect in eyesight or hearing, for which no fee shall be charged. No applicant shall be granted an operator's certificate by the licensing authority unless he has produced the aforesaid medical certificate and unless he has qualified at the aforesaid qualifying test.

The Central Board and the Regional Committees shall consist of such persons as may be appointed in that behalf by the State Government.

It shall not ordinarily be necessary for an operator to pass again the qualifying test referred to above at the time of renewal of his certificate but the licensing authority may, if in its opinion the circumstances justify in any particular case, have the operator tested in any particlar subject of that test at the time of renewing the certificate. At the time of each renewal a medical certificate as referred to above shall be produced but no fee for medical examination shall be charged.";
